## Our policy on corrections:

We all love our dogs and we want to do right by our pets. There is much confusion as to how, when & why we should correct our dogs. Some trainers are correction based while others use a 100% positive - "never correct" policy. Diamonds falls into neither category. Instead, we use a middle of the road, well-balanced & common sense approach. We never use harsh corrections or choke chains.

To start training your dog, we utilize food rewards to teach your dog how to focus. Your dog will enjoy training and your dog will enjoy coming to class. Then once a behavior is learned, we apply mild & humane corrections. This ensures that while our dogs enjoy training, they understand that certain behaviors are unacceptable. This also ensures that your dog can obey when no food rewards are around. THE RESULT will be a well adjusted, happy and obedient dog that you will be proud of.

While we utilize corrections, we realize that all dogs and breeds are unique in temperament. Our small class size and extensive experience allows us to tailor the training program for each dog and family. Shy dogs and rescues will be treated and handled differently then the more dominant dogs who may be experiencing those "teenage times."

## Class Descriptions

### **Household Manners**

This is the entry level obedience class for all canines, designed for all breeds and all age groups of dogs. Topics covered in class: sit, down, stay, off (no jumping), come when called, leave-it, loose lead walking (no pulling on leash), quiet, housebreaking, crate training, collars and other equipment options, basic canine care and husbandry, feeding and grooming.

### **Intermediate Obedience Class**

For those pet owners who have already taken an entry level obedience class who want to hone their skills with what they've already learned.

### **Come When Called**

This class teaches your dog to come when called around distractions. Learn off-leash training techniques. We will show you the secrets that professional dog trainers use on their own dogs. **Requirement:** graduation from an entry level obedience class.
